**No of Students Participated** : 04

On 13th December 2025, Sree Abirami College of Pharmacy successfully conducted a one-day workshop titled “*Laboratory Animal Handling for Drug Discovery.*” The workshop aimed to provide students with practical knowledge and hands-on experience in laboratory animal handling, which is a critical skill in pharmaceutical research and drug discovery processes.

A total of four enthusiastic students of III B.Pharm participated in the workshop. The session covered key aspects of laboratory animal care, ethical handling procedures, experimental protocols, and safety measures. The event concluded successfully with a better understanding of laboratory animal handling among the participants.

## ABOUT THE COLLEGE

Sree Abirami College of Pharmacy, Coimbatore was established in the year 2017 with a distinct vision of offering job-oriented professional courses in the field of Pharmacy. The Institution prides itself on providing educational opportunities in the form of D. Pharm, B. Pharm, Pharm.D, & M.Pharm programme, enabling students to excel in their pharmaceutical careers.

This esteemed college is approved by PCI, New Delhi, affiliated with the Tamil Nadu Dr. M.G.R Medical University, Chennai, and recognized by the Directorate of Medical Education (DME), Chennai. Moreover, it holds recognition from the Government of Tamil Nadu, underlining its commitment to adhering to the highest educational standards and regulations. One of the key strengths of Sree Abirami College of Pharmacy is its infrastructure, with 300 bedded own hospital which has been thoughtfully designed to create an environment conducive to academic learning. The college boasts state-of-the-art CCSEA approved animal house facilities that ensure students receive a high-quality preclinical research education.

With its focus on practical and career-oriented education in Pharmacy, Sree Abirami College of Pharmacy is poised to make a significant impact in the field. By offering these professional programs and ensuring a well-equipped learning environment, the college is contributing to the growth and development of the pharmaceutical sector and, in turn, the healthcare industry as a whole.

## ABOUT THE PROGRAMME

This continuous education programme and Workshop aims to bring together researchers, industry experts, and PG Pharmacology, B.Tech students to explore the latest trends like Artificial Intelligence, and key challenges in handling of Laboratory animals during drug development. The workshop will provide an in-depth exploration of the evolving landscape in drug safety, discovery, and development. Participants will gain insights into the most pressing issues currently shaping the industry, from cutting-edge approaches in drug discovery and development to the growing importance of artificial intelligence.

By attending, participants will leave with a comprehensive understanding of the current and future landscape in animal handling techniques in preclinical research during drug discovery, and development, along with practical strategies for overcoming the challenges and leveraging emerging trends in the field of artificial intelligence. Join us for this unique opportunity to engage in insightful discussions, exchange ideas, and contribute to shaping the future of drug development and discovery.

## KEY HIGHLIGHTS

### Expert Speakers:

Renowned experts and researchers in pharmacy will share their insights, presenting cutting-edge research and developments.

### Interactive Sessions:

Engage in thought-provoking discussions and interactive sessions, where ideas and knowledge are exchanged freely.

Hands on training for animal handling; learn how to handle rodent and different blood collection techniques, useful for PG Pharmacology students and B.Tech students.
